BOBBINK & ATKINS, RUTHERFORD, NEW JERSEY

Supplementary List of Roses

TO OUR CATALOG OF 1921

In order to have a complete collection of Roses, we grow practically every variety of merit, both new and old.

We offer in the following list, Roses not listed in our Rose Catalog. Some of these varieties are of American origin, and the others were introduced by European Rose specialists within the last two years, and imported by us from the introducers.

Those marked (†) we have in quantity, and others we have succeeded in budding a limited number. We offer these for the first time. They are field-grown, low-budded plants.

ABBREVIATIONS

A. B., Austrian Brier; C., China; Cl. W., Climbing Wichuraiana; H. Brac., Hybrid Bracteata; H. Mos., Hybrid Moschata; H. T., Hybrid Tea; Per., Perpetual; Rug., Rugosa.

PRICES.—Owing to the demand for these new Roses, and inasmuch as our stock is limited, no reduction can be given on quantities ordered.

Varieties marked with an asterisk (*) can be supplied in tree form at $3.50 each.
